

Portable Air Conditioners

The world's lightest air conditioner.

Indoor usage scenarios

**Caravans, Cars, Vehicle, Base stations!
Kitchens, Study, Bedrooms, Offices, Pet room, etc.**

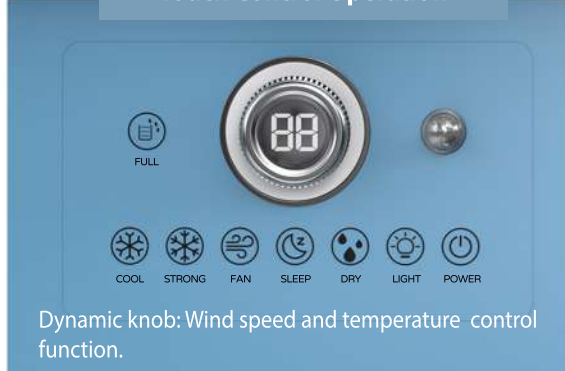

- Refrigerating air speed 6-grade adjustment function
- Independent strong refrigerating function
- Air supply function
- Independent dehumidification function
- Sleeping function
- Independent lighting function

Panasonic DC Compressor Display

Panasonic Double-rotor DC variable frequency compressor 200W

Touch Control Operation

Dynamic knob: Wind speed and temperature control function.

Just Only 5kg

A small air conditioner, air heat exchange combination mechanism patent

Item	Parameters
Product Specification	L350xW242xH245 mm /5KG
Appearance and Color	Cactus green, light blue
Compressor	Panasonic Double-rotor DC variable frequency compressor
Rated Voltage	DC 24V
Noise	≤49dB
Circulating Air Flow	85m³/h
Refrigerating Power	200W/8.33A
Refrigerating Capacity	540W/1800BTU
Refrigerant	R134a
Usable Area	4-6m²
Operating Method	1.Touch panel (LEDdisplayknob) 2.Remote control
Battery	806Wh energy storage battery available for 4-6H (optional)
Adapter Specification	277. 2W, 25. 2V/11A
Power supply mode	Adapter AC100V~240V/50Hz/60Hz DC24V
Operating Temperature	16-45° C (60.8-113° F)
